## PREFACE

### SCOPE

This manual covers the TTP of the QM FSC, DS (TOE 42414L0) and QM FSC, M (TOE 10414L0). It describes the mission, organization, and operations of both companies in terms of performing SLCRs as a section/team concept under the SLCR platoons for the QM FSC, M. New doctrinal concepts supporting this structural idea for the QM FSCs are included in this manual and, at the same time, providing field service applications in today's setup. However, this manual implements a new way of performing the mission by the QM FSC, DS as it materializes into the new QM FSC, M in supporting the U.S. Army into the twenty-first century. This manual is for all QM FSC personnel. All soldiers should use this manual along with FMs 10-1, 10-27-2, and 63 series. This manual is based on doctrine in FMs 100-5, 100-10, 100-15, and 29-15. FM 100-5 is the Army's keystone doctrinal manual. It outlines how the Army will fight. FM 100-10 is the Army's keystone CSS doctrinal manual. It provides an overview of the CSS systems for supporting the Army in the field. FM 100-15 is the Army's keystone manual for corps operations. FM 29-15 is the Army's guidebook for division supply and FS operations. FM 42-414 is meant to be a doctrinal guide, not a precision directive. Refer to the publications identified in the References at the end of this manual for more tactical and technical "how-to" procedures for CSS.

*Planning.* Supervisors must ensure the unit's mission is carried out with the available equipment, personnel, and METT-TC conditions. They must be aware of the problems they will face in wartime versus peacetime (or stability and support operations). This manual will help them determine their unit's capabilities. It will also help them organize their resources to do their mission.

*Operations.* This manual explains doctrine and describes current and pertinent policies and standards. It relates accepted and new TTPs and policies that apply to the QM FSC, DS and formation of the QM FSC, M. This manual allows the command to make decisions to do their mission, based on chain-of-command guidance and the immediate and future prediction of METT-TC status and stability and support operational setting. This manual is for the use by Active Army, National Guard, and U.S. Army Reserve organized as QM FSC, DS under TOE 42414L and QM FSC, M under TOE 10414L0.

*Training.* Supervisors are responsible for training their soldiers to meet the standards set in the unit ARTEP/MTP and STP manuals. Training must be geared to meet both wartime and peacetime operations. See FMs 25-100 and 25-101 for details on training.

### ORGANIZATION AND COVERAGE

There are four chapters in this manual. Chapter 1 covers the overall alignment and mission of FS support units and the organizational structure and services of the QM FSC, DS and QM FSC, M. Chapter 2 identifies both the QM FSC, DS and QM FSC, M headquarters' mission and responsibilities. Chapter 3 explains operational mission services of the SLCR platoons and their sections/teams that make up the QM FSC, M while depicting the QM FSC, DS present operational functions. Chapter 4 cites the new emerging systems, effecting the QM FSCs.

## **USER INFORMATION**

The proponent of this publication is HQ, TRADOC. Send your comments and recommendations on DA Form 2028 (Recommended Changes to Publications and Blank Forms) directly to:
